- Clean the surface using detergent.
- The surface must be dry, clean and free from oil and any loosen particle.
- Apply PROPAN ANTI SLIP COATINGS ASLC-543-2K SB with coating ammount 100 gr/m², distribute evenly by using short hair roll.

Technical Data :

- Resistant to :		
1. Ceramic cleaner	Pass	
2. Calorine	Pass	
3. Household Chemical	Pass	
- Dirt pick up resistance	Pass	
- Adhesion	4B	Cross Cut Test
- Slippery Level	R12	

Application :

Application method	: Short hair roll
Mixing ratio	: Comp. A : B = 9 : 1 (by weight)
Material consumption (ca)	: 100 - 200 gr/m ² (depending on the substrate)
Coverage theoretical	: 5 - 10 m ² /Kg-set (depend on substrate)
Drying time	: Touch dry : 20 minutes
	: Full cured : 60 days
Open traffic	: 24 hours
Packaging	: 1 dan 5 kg - set

ANTI SLIP COATINGS

ASLC-543-2K SB

Make Ceramic and
Marble Floor Non-slippery

Slippery, falls, risk of fracture!!
